

COMMONWEALTH OF KENTUCKY
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

AN INVESTIGATION INTO THE)	
ELIMINATION OF SWITCHED ACCESS)	ADMINISTRATIVE
SERVICES DISCOUNTS AND ADOPTION OF)	CASE NO. 336
TIME-OF-DAY SWITCHED ACCESS RATES)	

O R D E R

The Commission entered a decision in this matter on September 2, 1992. On September 21, 1992, AT&T Communications of the South Central States, Inc. ("AT&T") filed a petition for reconsideration or clarification. AT&T moves the Commission to require elimination of the non-premium discount in non-equal access end offices for all terminating rate elements, including both traffic sensitive and non-traffic sensitive rate elements.

The Commission's September 2 decision explicitly discussed elimination of the non-premium discount in non-equal access end offices relative to non-traffic sensitive rate elements. It did not explicitly discuss elimination of the discount relative to traffic sensitive rate elements. The intent, however, was to eliminate the discount in both areas.

The Commission, having been otherwise sufficiently advised, finds that AT&T's motion should be granted and HEREBY ORDERS that the non-premium discount in non-equal access end offices applicable to terminating switched access minutes of use shall be eliminated no later than July 1, 1993 for both traffic sensitive

and non-traffic sensitive rate elements, including charges for non-traffic sensitive revenue requirement recovery (formerly carrier common line charges), local switching, local transport, and information.

Done at Frankfort, Kentucky, this 5th day of October, 1992.

PUBLIC SERVICE COMMISSION

Chairman

Vice Chairman

Commissioner
